3-Digit by 2-Digit Long Division, No Remainders

Name: _____ Date: _____

Divide by a 2-digit number. These all come out evenly. Think: how many times does the divisor fit?

1.

$22 \overline{)924}$

2.

$20 \overline{)560}$

3.

$22 \overline{)572}$

4.

$13 \overline{)676}$

5.

$18 \overline{)252}$

6.

$25 \overline{)375}$

7.

$23 \overline{)253}$

8.

$20 \overline{)740}$

9.

$13 \overline{)858}$

3-Digit by 2-Digit Long Division, No Remainders

Answer Key

Divide by a 2-digit number. These all come out evenly. Think: how many times does the divisor fit?

1. $22 \overline{)924} = 42$

2. $20 \overline{)560} = 28$

3. $22 \overline{)572} = 26$

4. $13 \overline{)676} = 52$

5. $18 \overline{)252} = 14$

6. $25 \overline{)375} = 15$

7. $23 \overline{)253} = 11$

8. $20 \overline{)740} = 37$

9. $13 \overline{)858} = 66$
