

Fact Family Worksheet to 20

Name: _____

Date: _____

Use the three numbers on the roof to write two addition and two subtraction facts.

13 17 4

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

4 13 9

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

5 12 7

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

6 10 4

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

10 14 4

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

3 10 7

____ + ____ = ____

____ + ____ = ____

____ - ____ = ____

____ - ____ = ____

Fact Family Worksheet to 20

Answer Key

Use the three numbers on the roof to write two addition and two subtraction facts.

A house-shaped diagram with a pink roof. The roof contains three circles: a large red circle with the number 17, and two smaller white circles with the numbers 13 and 4. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 13 + 4 = 17 \\ 4 + 13 = 17 \\ 17 - 13 = 4 \\ 17 - 4 = 13 \end{array}$$

A house-shaped diagram with a light blue roof. The roof contains three circles: a large blue circle with the number 13, and two smaller white circles with the numbers 4 and 9. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 4 + 9 = 13 \\ 9 + 4 = 13 \\ 13 - 4 = 9 \\ 13 - 9 = 4 \end{array}$$

A house-shaped diagram with a light green roof. The roof contains three circles: a large green circle with the number 12, and two smaller white circles with the numbers 5 and 7. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 5 + 7 = 12 \\ 7 + 5 = 12 \\ 12 - 5 = 7 \\ 12 - 7 = 5 \end{array}$$

A house-shaped diagram with a pink roof. The roof contains three circles: a large pink circle with the number 10, and two smaller white circles with the numbers 6 and 4. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 6 + 4 = 10 \\ 4 + 6 = 10 \\ 10 - 6 = 4 \\ 10 - 4 = 6 \end{array}$$

A house-shaped diagram with a yellow roof. The roof contains three circles: a large yellow circle with the number 14, and two smaller white circles with the numbers 10 and 4. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 10 + 4 = 14 \\ 4 + 10 = 14 \\ 14 - 10 = 4 \\ 14 - 4 = 10 \end{array}$$

A house-shaped diagram with a pink roof. The roof contains three circles: a large red circle with the number 10, and two smaller white circles with the numbers 3 and 7. Below the roof, the body of the house contains four math facts arranged in two rows of two.

$$\begin{array}{l} 3 + 7 = 10 \\ 7 + 3 = 10 \\ 10 - 3 = 7 \\ 10 - 7 = 3 \end{array}$$
