

Kangaroo-Style Math Practice, Grades 1-2, Set 1

Name: _____ Date: _____

Choose the correct answer (A, B, C, D or E). Problems get harder as you go: the first two are worth 3 points, the next two 4 points and the last two 5 points.

- 1.** The clock shows the time a picnic starts. The picnic lasts 4 hours. What time does it end?

3 pts

(A) 4:00 (B) 5:00 (C) 6:00 (D) 5:30 (E) 1:00

- 2.** Today is Saturday. What day of the week will it be in 5 days?

3 pts

(A) Wednesday (B) Friday (C) Sunday (D) Thursday (E) Saturday

- 3.** I think of a number. When I add 8, I get 16. What is my number?

4 pts

(A) 7 (B) 8 (C) 9 (D) 10 (E) 16

- 4.** How many matchsticks were used to make this picture?

4 pts

(A) 8 (B) 9 (C) 10 (D) 11 (E) 12

- 5.** What number comes next? 12, 15, 18, 21, ?

5 pts

(A) 22 (B) 23 (C) 24 (D) 25 (E) 27

- 6.** Same shapes stand for the same number. What number is the star?

5 pts

$$\triangle + \triangle = 10$$

$$\triangle + \star = 6$$

(A) 1 (B) 3 (C) 5 (D) 6 (E) 10

Kangaroo-Style Math Practice, Grades 1-2, Set 1

Answer Key

Choose the correct answer (A, B, C, D or E). Problems get harder as you go: the first two are worth 3 points, the next two 4 points and the last two 5 points.

1. **(B) 5:00**

Move the hour hand forward 4 hours: the picnic ends at 5:00.

2. **(D) Thursday**

Every 7 days it is Saturday again. $5 = 0 \times 7 + 5$, so count 5 days on from Saturday: Thursday.

3. **(B) 8**

Go backwards: $16 - 8 = 8$.

4. **(C) 10**

Count them: 4 standing up and 6 lying down, 10 in all.

5. **(C) 24**

Each number is 3 more than the one before, so the next one is $21 + 3 = 24$.

6. **(A) 1**

Two triangles make 10, so one triangle is 5. Then $5 + \text{star} = 6$, so the star is 1.
