Answer Key

Choose the correct answer (A, B, C, D or E). Problems get harder as you go: the first two are worth 3 points, the next two 4 points and the last two 5 points.

1. **(C) 21**
   Each number is 3 more than the one before, so the next one is 18 + 3 = 21.

2. **(A) 11:30**
   Move the hour hand forward 4 hours: the picnic ends at 11:30.

3. **(B) 8**
   Go backwards: 15 - 7 = 8.

4. **(C) 4**
   The numbers are 17 up to 20, which is 4 numbers.

5. **(E) 11**
   The cousin is 5 + 4 = 9 now, and 9 + 2 = 11 in 2 years.

6. **(B) $2**
   2 pencils cost 2 x $4 = $8. The change is $10 - $8 = $2.
