How to Solve Nonograms: Easy 5x5 Starter

Name: _____ Date: _____

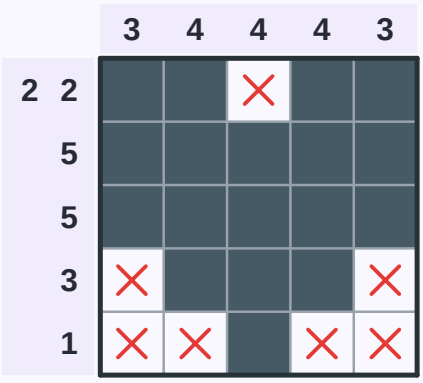

Shade squares to match the numbers. Read the example first!

How to solve: a worked example

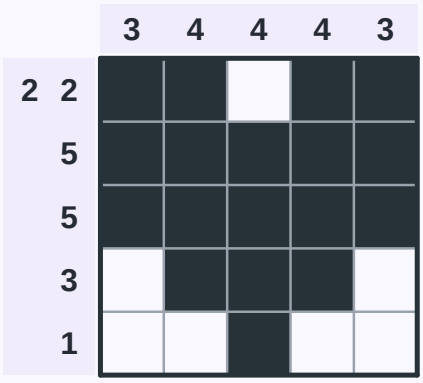

1. Start with the big numbers. A 5 fills the whole row of 5 squares. A 4 always covers the 3 middle squares.
2. Put a small X in squares that must stay empty. Then do the columns the same way.
3. Go back and forth between rows and columns until the picture is done.

Step 1: the rows

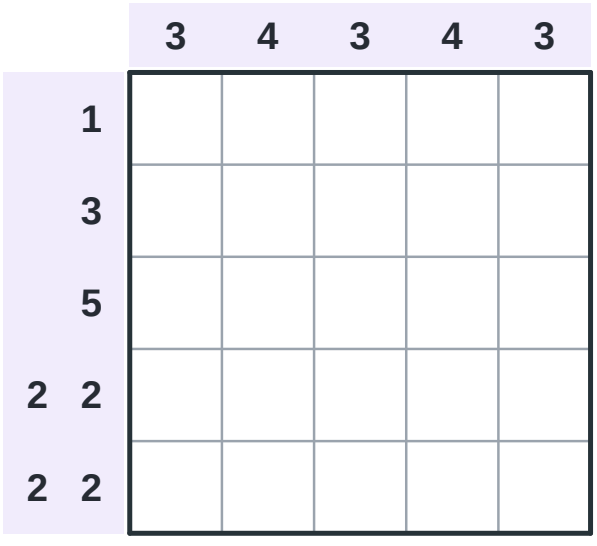

Step 2: the columns

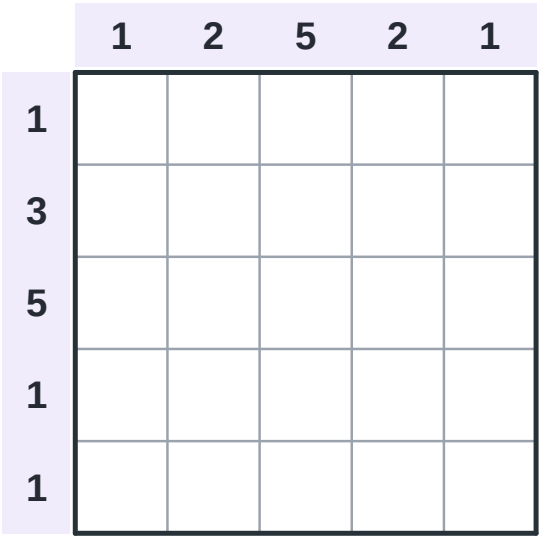

Done: a heart!

Your turn: puzzle 1

It is a _____

Your turn: puzzle 2

It is a _____

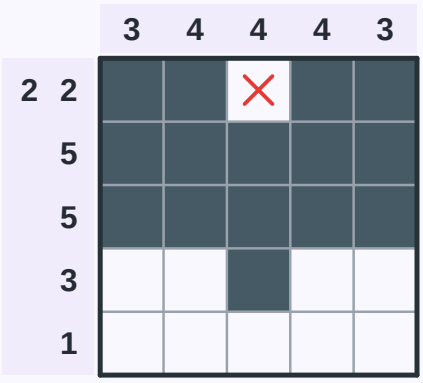

How to Solve Nonograms: Easy 5x5 Starter

Answer Key

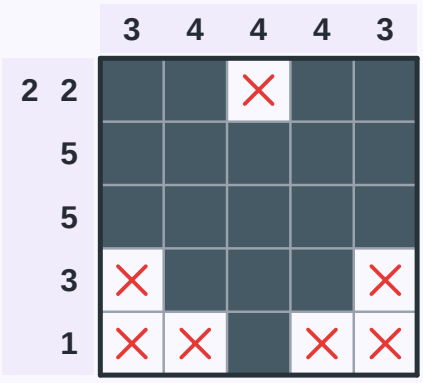

Shade squares to match the numbers. Read the example first!

How to solve: a worked example

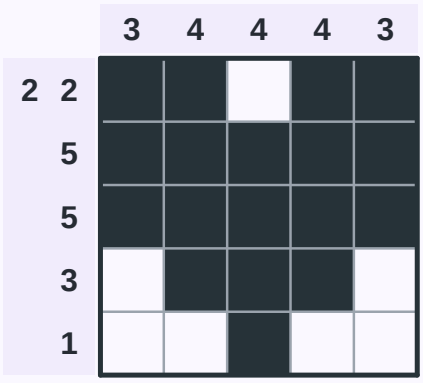

1. Start with the big numbers. A 5 fills the whole row of 5 squares. A 4 always covers the 3 middle squares.
2. Put a small X in squares that must stay empty. Then do the columns the same way.
3. Go back and forth between rows and columns until the picture is done.

Step 1: the rows

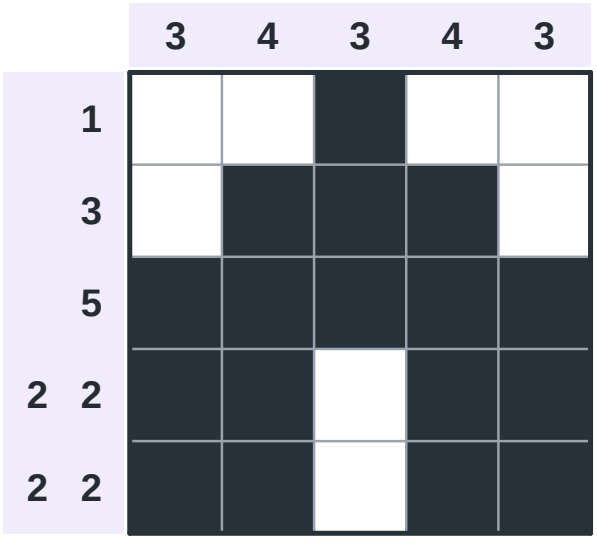

Step 2: the columns

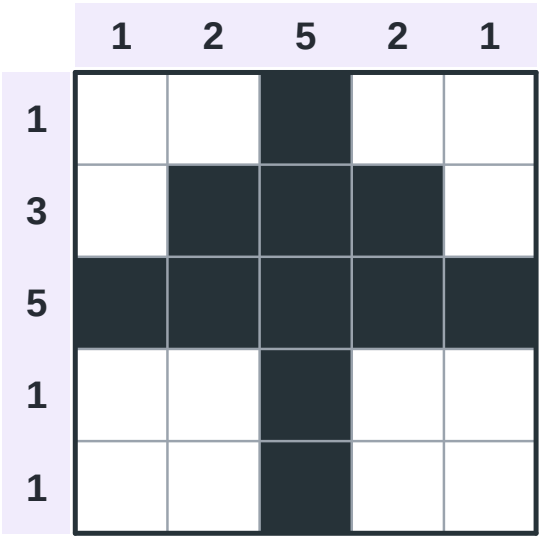

Done: a heart!

Your turn: puzzle 1

It is a house!

Your turn: puzzle 2
