How to fold your mini card

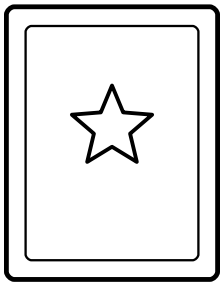

Print page 1 on cardstock or plain paper. Color the picture first, it is easier while the sheet is flat.

1. Fold the top half BACK, behind the picture.

2. Fold the left half BACK, so the picture is in front.

3. Done: a 4.25 x 5.5 in card.

Open it to write your message on the lines; the back has a place for the artist's name.

Tip: run a ruler or a spoon along each fold for a crisp edge.
